The Canadian Black Chamber of Commerce promotes business excellence through cultural and social dimension. "While we commend the Government's emergency funding response to COVID-19, the chamber asks that the Provincial and Federal government consider the unique vulnerability of black-owned businesses and allocate funding specific to our business community. These steps will offer increased flexibility while recognizing the additional intricacies that set black-owned micro and small businesses apart from the mainstream business." Says Andria Barrett President of the Canadian Black Chamber of Commerce organizer of the #saveblackbusinesses.

The Canadian Black Chamber of Commerce is encouraging members of our community to visit www.SaveBlackBusinesses.com to learn more about our recent proposal to the Provincial

government. The chamber is also looking for sponsors for the CBCC Virtual Summit event and for their efforts to provide assistance for businesses across the country. The #saveblackbusinesses initiative is only the first step.
