Streetcar, also known as tram or trolley, is a rail vehicle that runs on tramway tracks along public urban streets operated usually in single units and usually driven by electric motor. It is usually lighter and shorter and lighter than main line and rapid transit trains. It provides a higher capacity service than buses. It can run on renewable electricity without the need for very expensive and short life batteries. Typically light rail systems attract between 30-40% of their patronage from former car trips.
