

Arizona US Navy Veterans Lung Cancer Advocate Urges a Navy Veteran or Person with Lung Cancer in Arizona Who Also Had Significant Exposure to Asbestos to Call the Lawyers at Karst von Oiste-Please Get Compensated

PHOENIX , ARIZONA, USA, May 27, 2020

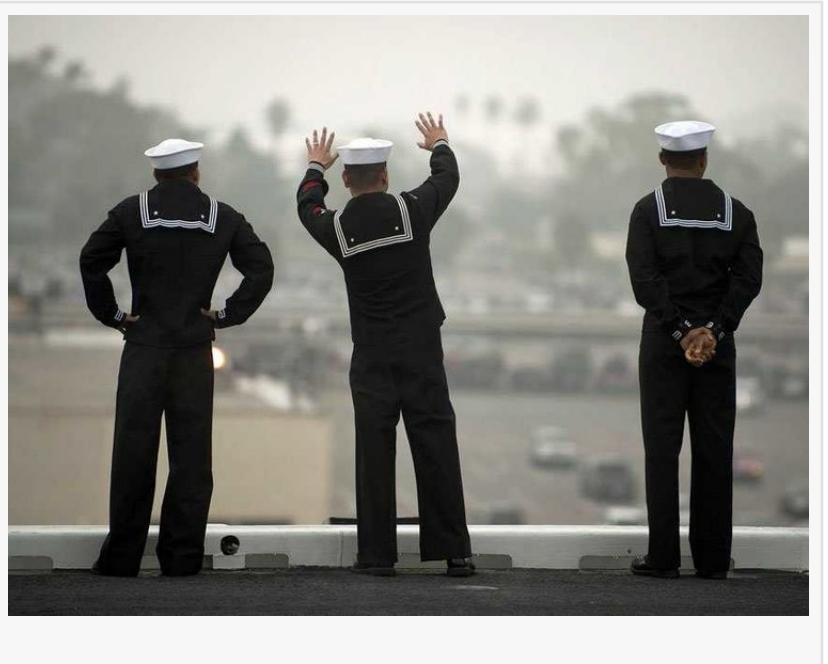

[/Einpresswire.com/](https://www.einpresswire.com/) -- The Arizona US Navy Veterans Lung Cancer Advocate is urging a Navy Veteran or person with lung cancer anywhere in Arizona to call them anytime at 800-714-0303 if the person had significant exposure to asbestos prior to 1982. Even if the person smoked cigarettes the compensation for a person like this might exceed \$100,000. Most people with lung cancer-and who had heavy exposure to asbestos never get compensated-even though the \$30 billion dollar-asbestos trust funds were set up for them too. The person the Advocate is trying to identify is over 60 years old.

The Advocate says, "To get the compensation job done for a Navy Veteran or person with asbestos exposure lung cancer or mesothelioma we have endorsed the remarkable lawyers at the law firm of Karst von Oiste-KVO. The lawyers at the law firm of Karst von Oiste-KVO have been assisting Navy Veterans and people with asbestos exposure lung cancer and mesothelioma for decades and they are responsible for over a billion dollars for people like this. If you have lung cancer-and you had significant exposure to asbestos in the navy or at work please call 800-714-0303 for direct access to the lawyers at Karst von Oiste to discuss compensation-what do you have to lose?" www.karstvonoste.com/

The Arizona US Navy Veterans Lung Cancer Advocate is offering to assist a Navy Veteran or person with asbestos exposure lung cancer in Arizona organize the how, where and when they were exposed to asbestos. They call this free service the 'list' and it is this vital information that becomes the foundation for a compensation claim as they would be happy to explain at 800-714-0303.

Lung Cancer Advocate*

Individuals in the state of Arizona could have been exposed to asbestos while working at a power plant, at an industrial facility, at a steel mill, at an automobile manufacturing facility, at a chemical plant, as a plumber, a boiler technician, as an auto repairman, as an electrician, or in the construction industry. In most cases, the exposure to asbestos caused mesothelioma at one of these types of workplaces and the exposure took place in the 1950's, 1960's, 1970's, or 1980's. Mesothelioma or asbestos exposure lung cancer typically takes three to five decades to appear.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact."

<https://USNavyLungCancer.Com>

According to the American Cancer Society for nonsmokers who have been exposed to asbestos

in their workplace the risk of lung cancer is five times that of unexposed workers.

<https://www.cdc.gov/cancer/lung/statistics/index.htm>.

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Arizona. www.karstvonoste.com/
