

Global Genomics Market Overview

The Business Research Company releases a new report on Genomics Market Global Report 2020: Covid 19 Implications And Growth

LONDON, GREATER LONDON, UK, April 16, 2020 /EINPresswire.com/ -- The global genomics market is expected to grow at a rate of about 14.71% and reach \$1475.11 million by 2023. Rising government funds for research on genomics drives the growth of the single-cell genomics market. However, technology limitations in single-cell genomics hinders the growth of the single-cell genomics market.

The genomics market consists of sales of single-cell genomics and related goods. The study of genomes is called genomics. Single-cell genomics is an innovative method of classifying individual cells from a tissue sample, capable of defining unique traits and identifying rare cell types. Genomics is used in different fields of study such as intragenomic phenomena including pleiotropy, epistasis, heterosis, and other interactions between loci and alleles within the genome.

The global genomics market is further segmented based on type and geography.

By Type - The genomics market is segmented into instrument (including systems, service contract, and software) and reagents (including reagents and consumables).

By Geography - The global genomics is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East, and Africa. Among these regions, the North American genomics market accounts for the largest share in the global genomics market.

Trends In The Genomics Market

Companies are investing in new product launches to increase their revenue and expand their consumer base and also for gaining a competitive edge over their rivals.

Potential Opportunities In The Genomics Market

With increase in positive economic outlook and healthcare awareness, the scope and potential for the global genomics market is expected to significantly rise in the forecast period. Major players in the genomics market include 10X Genomics, Qiagen NV, Fluidigm Corporation, Johnson & Johnson Private Limited, Zephyrus Biosciences Inc., Illumina, Inc., Affymetrix, Angle PLC, Denovo Sciences Inc., and Diagenode LLC.

Genomics Global Market Report 2020 is one of a series of new reports from The Business Research Company that provides genomics market overviews, analyzes and forecasts genomics market size and growth for the global genomics market, genomics market share, genomics market players, genomics market size, genomics market segments and geographies, genomics

market trends, genomics market drivers and genomics market restraints, genomics market's leading competitors' revenues, profiles and market shares. The genomics market report identifies top countries and segments for opportunities and strategies based on market trends and leading competitors' approaches.

Where To Learn More

Read Genomics Global Market Report 2020 from The Business Research Company for information on the following:

Markets Covered: global genomics market

Data Segmentations: genomics market size, global and by country; historic and forecast size, and growth rates for the world, 7 regions and 12 countries

Genomics Market Organizations Covered: 10X Genomics, Qiagen NV, Fluidigm Corporation, Johnson & Johnson Private Limited, Zephyrus Biosciences Inc., Illumina, Inc., Affymetrix, Angle PLC, Denovo Sciences Inc., and Diagnologix LLC

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Time Series: Five years historic (2015-19) and forecast (2019-23)

Other Information And Analyses: PESTEL analysis, genomics market customer information, genomics market product/service analysis – product examples, genomics market trends and opportunities, drivers and restraints, key mergers and acquisitions, key metrics covered: number of enterprises, number of employees, global genomics market in 2020 - countries offering most new opportunities

Sourcing and Referencing: Data and analysis throughout the report are sourced using end notes.

Strategies For Participants In The Genomics Industry: The report explains a number of strategies for companies in the genomics market, based on industry trends and company analysis.

Opportunities For Companies In The Genomics Sector: The report reveals where the global genomics industry will put on most \$ sales up to 2023.

Interested to know more about The Business Research Company?

The Business Research Company has published over 1000 industry reports, covering over 2500 market segments and 60 geographies. The reports draw on 150,000 datasets, extensive secondary research, and exclusive insights from interviews with industry leaders. Here is a list of reports from The Business Research Company similar to Genomics Global Market Report 2020:
