Tea tree oil is made by passing a current of steam through the terminal branches and fresh leaves. After cooling, crucial oil is separated from the water collected. From nearly 100 years tea tree oil has been extensively used to treat quite an extraordinary range of conditions and found many other uses. Because of tea tree oil's antibacterial, anti-fungal, antimicrobial and antiviral properties. Tea tree oil is used in herbal medicines especially for the cure of skin and the lining of the mouth. This has led to significant growth in the market in the forecast period. The Australian Bureau of Statistics (ABS) reported Australian TTO exports in 2016 having around the total value of AUD 25,203,914 for all regions in the world. In the first trimester of 2016, total exports were nearly USD 7,087,020, with a 62.5% share going to North America. Europe had the second largest share is approximately 25.2%, followed by Asia then Africa and the Middle East and South America with no data in the first trimester.
