Gummy Vitamin is known as a vitamin supplement available in the form of gummies. When compared to the traditional capsules and pills, supplements in the form of gummies can be more convenient and appealing, not only for kids but also for the older adults. It is the flavorings (cherry, orange, and raspberry, etc) and chewiness that make them attractive to adults and children alike, as chewing gummies vitamins is more convenient than swallowing capsules or pill for anyone. Gummy vitamins not only just gained popularity among the children, at whom the product was initially pitched as an attractive alternative to bitter pills but also among the adults who are conscious about health and want to better life expectancy. As a result, their market can be seen progressing steadily.

Market Data Break Down are illuminated below:

by Type (Single Vitamin, Multi vitamin), Application (Pharmaceutical, Chemical, Food, Other), Distribution Channel (Offline, Online), End User (For adults, For children)
