

Allied Launches Dedicated Product Hubs to Help Customers Keep Critical Production Lines Running During COVID-19 Crisis

Online product hubs focus on solutions for food, beverage, medical and pharmaceutical industries

FORT WORTH, TEXAS, USA, April 22, 2020 /EINPresswire.com/ -- As global supply chains for manufacturers and processors face unprecedented challenges during the current COVID-19 pandemic, Allied Electronics & Automation is launching dedicated product pages for customers in the [food and beverage](#), and [medical and pharmaceutical](#) industries to more quickly and easily find the specialized sensing, process control, connectivity, lubrication, cleaning, safety, test and inspection products needed to keep facilities operating to feed, hydrate and heal the world.

Allied logo

Essential ready-to-ship inventory found on Allied's dedicated food and beverage industry hub – much of which is IP67/69K rated for wash-down protection – includes machine safety and guarding equipment, cable assemblies, wire management solutions, process controllers, lubricants, cleaners, a wide range of connectors and variety of essential sensors (photoelectric, proximity, pressure, temperature, vision, position and level.)

“

With all the disruptions and uncertainty in global supply chains right now, Allied continues to ensure our customers in these critical industries can keep their facilities up and running.”

Mike Walker, Allied Vice President of Sales

For medical and pharmaceutical customers, Allied stocks a wide range of sensing technologies and brands tailored for use in manufacturing, packaging and healthcare environments, including sensing solutions for liquids and powders, pneumatics, power supplies and relays, safety controllers, machine guarding components, cable assemblies and connectors.

“Our food, beverage, medical and pharmaceutical customers provide the lifeblood of modern society – ensuring people around the world have access to the nutritional and healthcare essentials of modern daily life,” said Mike Walker, Allied's vice president of sales. “With all the disruptions and uncertainty in global supply chains right now, Allied continues to ensure our customers in these critical industries can keep their facilities up and running.” Throughout the COVID-19 crisis, Allied has been a key part of the global supply chain for crucial industries, [helping customers](#) like Ventec, Setech, AIM Manufacturing, Peace Medical and many others maintain production and delivery of vital medical devices and supplies to end users.

With more than 3 million products from more than 300 suppliers, millions of product datasheets, tens of thousands of 360-degree high-resolution product images and 24/7 expert customer service available online at www.alliedelec.com, Allied helps engineers, purchasers, maintainers, fleet and facility managers, and inventors build, maintain and renew their machinery and technology.

About Allied Electronics & Automation

Allied Electronics & Automation is a high service level, authorized distributor of industrial automation products, electronic components, and electromechanical products with sales offices serving the Americas. With more than three million parts online, engineers and purchasers look to Allied for a broad range of product solutions from more than 300 world-class suppliers. Connect with us at www.alliedelec.com or via social media on Facebook, Twitter and LinkedIn.
