

FinTech Studios Launches Free Revolutionary COVID Tracker™ using AI, Machine Learning and Natural Language Processing

World's most advanced Coronavirus news and analytics app now available FREE in 42 languages

NEW YORK, NEW YORK, UNITED STATES, April 21, 2020

/EINPresswire.com/ -- New York, NY April 21, 2020. [FinTech Studios™](#), the leading AI-based intelligent search and analytics platform for Wall Street, today launched a FREE revolutionary [COVID Tracker](#) for both businesses and consumers to use. "The COVID-19 pandemic is rapidly transforming our globe and impacting billions of people and millions of businesses in every region of the world" said [Jim Tousignant](#), founder and CEO of FinTech Studios. "We are excited to launch this free revolutionary AI-based COVID Tracker to help everyone on Wall Street and Main Street successfully navigate this challenging time and provide instant access to the most relevant COVID-19 related news and market analytics globally", said Tousignant.

COVID Tracker leverages Amazon AWS scalable cloud technology combined with FinTech Studios advanced artificial intelligence (AI), machine learning (ML) and natural language processing (NLP) technology to rapidly analyze unstructured data from millions of online sources in real-time across 42 languages covering all topics related to COVID-19.

“

The COVID-19 pandemic is rapidly transforming our globe and impacting billions of people and millions of businesses in every region of the world.”

Jim Tousignant

COVID Tracker includes multiple dashboards to instantly access breaking COVID news for all US States, Countries, Global Regions, Industries and Topics. Users can also intelligently search, filter and access millions of global news stories daily in 42 languages to see the latest trends over time. COVID Tracker instantly translates news from over 40 languages to any user selected language to quickly find relevant information in both native and foreign

languages. Users can assess the rapidly changing impact of COVID on millions of global companies, people, topics, regions, countries, industries, customers, suppliers, investors,

competitors and regulatory changes.

COVID Tracker interactive dashboards include AI-based News, Trending News, Media Coverage, Word Cloud and Co-Mentions widgets that filter relevant COVID content and analytics over various timeframes, including:

- **Trending News:** View the top trending news articles over any selected time frame
- **Media Coverage:** Graphically monitor the pace of COVID related news articles being published across any state, country, topic or industry over any selected time frame
- **Co-Mentions:** Quickly identify which companies, people and industries are most co-mentioned with COVID at global, regional and local levels over any selected time frame
- **Word Cloud:** Surface “top trending” keywords from millions of articles displayed as visual word clouds of the top trending words mentioned in COVID-related articles over any selected time frame

“The COVID Tracker is amazing. A user can drill into the very specific things they want to monitor and the Tracker will update them automatically. Plus it's simple to change what you are tracking and the perspective from which you are viewing data”, said Gerry Mintz, Managing Partner of Percepta Partners.
