## Holistic Approach to [In-home Senior Care](#)

Comfort Keepers takes a holistic approach when providing in-home senior care and general in-home health care. They provide care and assist with daily living activities including companionship. Comfort Keepers caregivers each receive about 100 hours of training in holistic treatment methods. This allows them to focus their care on the body as well as

the mind and spirit. Caregivers understand that each person they treat is different from another. Each has their own individual needs and preferences. By tailoring care to meet those needs, the experience promotes better outcomes--and more joy.
