

Saeed Torbati Announces Ontario Green Savings' Support During COVID-19 Crisis

Saeed Torbati says that Ontario Green Savings is hiring more remote support

TORONTO, ONTARIO, CANADA, April 22, 2020 /EINPresswire.com/ -- Saeed Torbati says that with heating and cooling being essential services, Ontario Green Savings will continue to provide services for its communities through remote tech support and customer service representatives.

[Saeed Torbati is the CEO of Ontario Green Savings](#), which was listed as one of Canada's fastest growing companies in 2019. Torbati also created En7rprnr, a platform to help budding entrepreneurs build and develop their businesses. He splits his time between Toronto and Ottawa.

Ontario Green Savings is a leading smart home rental program provider, bringing energy solutions, smart home and automation to approximately 8,500 customers in Ontario. The company provides green energy products that provide a real and convenient solution for consumers to offset the environmental impact associated with their everyday energy use.

"We are now more than ever hiring work from home tech support and customer service reps," says Saeed Torbati.

"Now more than ever people are staying home and using their furnaces and water heaters more than usual and that additional workload is causing wear and tear and creates servicing issues. We need to be prepared to maintain and service a larger number of customers. That requires additional licensed techs and customer service support."
