

US Briefings to be Presented at Small Satellites 2020

SMI reports: Small Satellites 2020 will feature a range of presentations from US experts, including NASA, US Air Force, Northern Sky Research and more

LONDON, UNITED KINGDOM, April 29, 2020 /EINPresswire.com/ -- As the space economy advances, it is evident that constellations of small satellites represent the future of satellite capability.

As such, nations around the world are developing their small satellite capability at pace - including the USA who continue to push for a space enterprise that moves at EPIC SPEED through rapid procurement and acquisition.

With this in mind, SMi Group are pleased to announce that a number of US presentations are on the agenda for [Small Satellites 2020](#), which will convene in London on 1st - 2nd September, to discuss regulations, prototyping, market trends, opportunities and more.

To register for the conference or to find out more, interested parties should visit: <http://www.small-satellites.com/EINpr7>

US Presentations include:

- "NASA's Small Spacecraft Technology Program: Pushing the Boundaries of Technology"
Presented by Mr Roger Hunter, Programme Manager, Small Spacecraft and Technology, NASA
- "Applications for Small & Cube Satellites"
Presented by Mrs Charlene Jacka, Branch Chief Engineer, Small Satellite Portfolio, AFRL, US Air Force
- "Data, Networking and Security in Space"
Presented by Mr Tyler Diaz, CEO, Stara Space
- "Small Satellite Market Trends & Opportunities for the Space Industry"
Presented by Ms Shagun Sachdeva, Senior Analyst, Northern Sky Research (NSR)

The poster features a dark background with a glowing blue and orange network of lines and nodes, resembling a satellite constellation or data network. The text is white and light blue. At the bottom, there is a light blue bar with the website URL.
