PUNE, MAHARASHTRA, INDIA, April 30, 2020 /EINPresswire.com/ -- Updated Research Report of [Cloud Storage Gateway Market 2020-2025](#):

Summary: -

A new market study, titled "Cloud Storage Gateway Market Upcoming Trends, Growth Drivers and Challenges" has been featured on WiseGuyReports.

Description:

Cloud storage gateways are hybrid appliances that combine local storage, data protection functionality, and cloud storage to form a collaborative, cost-effective package. A storage gateway ensures compatibility between different protocols used by cloud service providers and enterprises. In addition, it provides seamless connectivity between a local system and a cloud storage. Storage gateways are necessary to ensure that the data stored in the cloud storage infrastructure are optimized according to established standards. They also facilitate efficient management of traffic and storage space across a network.

Major factors propelling the growth of the market include the high availability of data, cost effectiveness, availability for use on-demand, the ability to function and flexibility of choosing provider as per requirement. The high growth of the market is creating significant opportunities for vendors of these solutions. However, major restraining factors to this market growth are a huge capital investment and lack of skilled personnel. Americas region is expected to dominate the cloud storage gateway market over the forecasted period on account of the high adoption of cloud storage gateways by SMBs

In 2018, the global Cloud Storage Gateway market size was xx million US\$ and it is expected to reach xx million US\$ by the end of 2025, with a CAGR of xx% during 2019-2025.
