

Grandmother attends Granddaughter's Wedding as a Virtual Guest at Long Island Skilled Nursing Center

GLEN COVE, NEW YORK, UNITED STATES OF AMERICA, April 30, 2020 /EINPresswire.com/ -- The bond between families at Glengariff Rehabilitation and Healthcare Center continues to prove stronger than COVID-19.

As the wedding day of our loved ones is a major milestone in our lives, as well as theirs, COVID-19 has been threatening the attendance of this incredibly special day; unless you are a part of the Glengariff community.

Thinking of creative ways to see our loved ones and family members, while also maintaining proper social distancing protocols, has been a focus throughout the CareRite Centers network. Glengariff is proud of adding a new special event to their repertoire of virtual visits- virtual wedding guests.

As shared from the daughter of a resident at Glengariff, the day would not have been the same without her mother's presence:

"Our daughter's wedding would have never been the same if it was not for Glengariff Concierge Antwan Brown. My mother Maria is presently in the facility for rehabilitation post knee surgery. And based on the current orders from New York State, and my mother's lack of social media/digital savvy, she would never been able to see her first grandchild's wedding. But Antwan wasn't going to let that happen."

Antwan Brown, using his personal

Resident of Glengariff Rehabilitation and Healthcare Center Attends Granddaughter's Wedding Virtually During COVID-19 Pandemic

device, set up the FaceTime visit so Maria could interact with her family and attend her first grandchild's wedding day as a virtual guest.

The family shared, "Difficult times cause people to do extraordinary things. And this family will forever appreciate and remember him [and Glengariff] for his kindness."

As COVID-19 continues to rear its ugly head throughout the nation, these moments are large victories, proving love can conquer this pandemic.

Glengariff Rehabilitation and Healthcare Center is following the recommendations of the CDC, along with staying up-to-date with the CDC recommendations as they are updated. In addition, Glengariff is in close contact with the local and state health department and are following their guidance.

Specializing in subacute rehabilitation and long term care, Glengariff Rehabilitation and Healthcare Center boasts the area's leading training center for short term rehabilitation. Like other communities in the CareRite Centers network, the uncommon denominator at Glengariff Rehabilitation and Healthcare Center is that every touchpoint of every experience will not only meet, but will exceed your expectations.
