

SDVOSB Maness Veteran Medical is Yankaddy's Exclusive Partner for VA and DoD Facilities

MVM is proud to have a hand in protecting our healthcare workers and patients through the distribution of the Yankaddy.

ASHEVILLE, NC, UNITED STATES, April 30, 2020 /EINPresswire.com/ -- SDVOSB [Maness](#) Veteran Medical is proud to announce a brand new exclusive partnership with [Yankaddy](#)®! This game-changing product is designed to help prevent healthcare associated infections (HAIs) commonly spread by the yankauer suction instrument on surfaces in the healthcare workplace. According to the CDC, 1.7 million patients are affected each year in the US by HAIs. The Yankaddy® can change that.

A true revolutionary product, the Yankaddy® is the solution to storage issues of the yankauer suction instrument before, during, and after its use on a patient.

The Yankaddy® offers a reliable place to store the yankauer suction instrument thereby keeping the environment from becoming contaminated. Designed to be used with one hand, the Yankaddy® adds safety to patients and convenience to medical providers. The lightweight storage brackets and holster may be clamped or suctioned to most surfaces in a room. The system features a disposable lid/liner making the Yankaddy® the ultimate patient safety tool, allowing healthcare providers to focus on their duties, putting Infection Control At Your Fingertips®!

As always, Maness Veteran Medical's overwhelming concern is bringing the world's best products to the veterans, and quickly. The Yankaddy® will not only help these veterans, but also the wonderful caregivers assisting them daily.

Please reach out today for samples, or to place an order with MVM!
