## SEXUAL HARASSMENT IN CALIFORNIA

Here is a background on this announcement. Many employees experience sexual harassment at work but are unsure of their legal rights. Even in supposedly “liberal” California, sexual harassment remains an issue. Impacted persons may not have even a basic knowledge of how sexual assault and sexual harassment may occur, let alone the legal rights and responsibilities that exist under California and federal law. With respect to sexual assault specifically, there are many common misconceptions. With April being a national month devoted to raising awareness, the new post is a one-stop resource for Bay Area residents to do a quick “crash course” in some of the issues involved. Then, they can learn more with the resource links, or if they believe that they may be impacted by sexual harassment they can reach out to the attorneys at the law firm for a consultation. With offices in Marin County, Alameda County, and San Francisco County, the firm’s attorneys are easily available. In addition, phone or web-based consultation options are offered.
