

# Florida US Navy Veterans Lung Cancer Advocate Offers a Navy Veteran with Lung Cancer in Florida Who Also Had Significant Exposure to Asbestos to Call the Lawyers at Karst von Oiste to Discuss Compensation

ORLANDO, FLORIDA, USA, June 19, 2020

/EINPresswire.com/ -- The Florida US Navy Veterans Lung Cancer Advocate says, "If you are a Navy Veteran in Florida and you have recently been diagnosed with lung cancer-and you had significant exposure to asbestos in the navy in places like Norfolk, Virginia, New London, Connecticut, San Diego, California or Pearl Harbor in Hawaii please call 800-714-0303 anytime for direct access to the lawyers at the law firm of Karst von Oiste. The person we are trying to identify is over 60 years old, his asbestos exposure took place prior to 1982 and he is probably totally unaware that the \$30 billion dollar-asbestos trust funds were set up for him too. Compensation for a person like might exceed a \$100,00-even if they smoked cigarettes.

"The reason we have endorsed the remarkable lawyers at Karst von Oiste to assist a Navy Veteran who now has lung cancer-and who had significant exposure to asbestos is because they have been helping people like this for decades and they are responsible for over a billion dollars in financial compensation results for people like this. For direct access to the lawyers at the law firm of Karst von Oiste please call 800-714-0303. They want to help." [www.karstvoniste.com/](http://www.karstvoniste.com/)

The Florida US Navy Veterans Lung Cancer Advocate is proud to help the people with asbestos exposure lung cancer or mesothelioma in Miami, Jacksonville, Tampa, Saint Petersburg, Orlando,

Hialeah, Fort Lauderdale, Tallahassee, Port Saint Lucie, Cape Coral or anywhere in Florida.

High-risk work groups for exposure to asbestos now living in Florida include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, steel mill workers, miners, manufacturing workers, public utility workers, plumbers, welders, electricians, auto mechanics, machinists or construction workers. Most people who are diagnosed in Florida were probably exposed to asbestos in the North East or Midwest. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind

of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact." <https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. [www.karstvonoiste.com/](http://www.karstvonoiste.com/)

For more information about asbestos exposure please visit the NIH's website on this topic: <https://www.cancer.gov/about-cancer/causes-prevention/risk/substances/asbestos/asbestos-fact-sheet>.
