Global Healthcare Distribution Market is Driven by the Rising Prevalence of Chronic Diseases

"The lives of far too many people in the world are being blighted and cut short by chronic diseases such as heart disease, stroke, cancer, chronic respiratory diseases and diabetes"- LEE Jong- Wook, Director-General of World Health Organization. According to the WHO report, four out of five chronic disease deaths are in low and middle-income countries. People in these countries tend to develop diseases at younger ages, suffer longer – often with preventable complications– and die sooner than those in high-income countries.

Chronic diseases include heart disease, stroke, cancer, chronic respiratory diseases, and diabetes. Visual impairment and blindness, hearing impairment and deafness, oral diseases and genetic disorders are other chronic conditions that account for a substantial portion of the global burden of disease.

Pharmaceutical Product Distribution Services Segment is Anticipated to Witness Huge Growth During the Forecast Period

According to the analyst at Infinium Global Research, the scope of the market is analyzed on the basis of type and end-user. Based on the type, the study includes pharmaceutical product distribution services, biopharmaceutical product distribution services, and medical device distribution services. Moreover, based on the global healthcare distribution market end-user, the study includes retail pharmacies, hospital pharmacies, and other end-users.

Among the global healthcare distribution market type segment, pharmaceutical product distribution services segment to witness growth during the forecast period due to increasing production of pharmaceutical formulations, rising pharmaceutical R&D expenditure, outsourcing of pharmaceutical manufacturing to Asian countries, and the establishment of new manufacturing facility by global pharmaceutical giants in newer geographies.

North America is Expected to Have a Premium Share

Geographically, the global healthcare distribution market is classified into North America, Asia-Pacific, Europe, and the Rest of the World. North America is expected to have a premium share in the global healthcare distribution market. The surge in healthcare expenditure and the presence of key pharmaceutical companies in North America drive the growth of the healthcare distribution market.

Asia-Pacific is expected to grow in the global healthcare distribution market with a significant CAGR over the forecast period. The growing demand for patient care and rising pharmaceutical and biotechnology businesses in the Asia-Pacific region contribute to the growth of the healthcare distribution market. Europe is showing growth in the global healthcare distribution market.
