“With COVID-19, now more than ever, companies are concerned about safety and cleanliness as part of their facility and sustainability programs”, RajBhandary added, “listening to our customers is key - our goal is to provide the safest solutions possible in the receptacle category”.

Fifty Mission Capital Co-Founder and Co-CEO Peter Anadranistakis states, “As an owner, an investment manager and asset manager of a large multifamily portfolio, we know it is incredibly important to integrate new innovative solutions at our properties to delight our clients and reduce expenses for our owners. Our cutting-edge approach will differentiate ourselves from any

competitor in the industry. Our goal is to implement innovative solutions into our existing portfolio properties and partner in core growth markets like Texas and Arizona. Fifty Mission Capital is focused on transforming the multifamily and property management landscape through technology.”

Solving a vexing problem, EZ Dump Commercial’s SmartcanMax™ seeks to eliminate the struggle and injuries associated with bag removal from traditional receptacles. When the SmartcanMax™

user steps on a foot release pedal, it eliminates suction and vacuum completely, allowing the user to remove the can off the trash bag. The user can then get in a safe, ergonomically neutral position and remove the bag, using two hands at all times. "Trash and recycled material handling is done millions of times daily. We are expanding our SmartcanMax™ product line, gathering customer feedback and responding accordingly," says RajBhandary.
