

1NUMBER.io Receives the 2020 Teleworking Solutions Excellence Award

Government agencies can have an award-winning, reliable, secure & easy to deploy communication solution for their on-premise or remote team member.

SANTA CLARA, CA, USA, May 6, 2020 /EINPresswire.com/ -- [101VOICE](#) announced today that [TMC](#), a global, integrated media company, has named [1NUMBER.io](#) as a 2020 TMCnet Teleworking Solutions Excellence Award winner presented by TMCnet.

The TMCnet Teleworking Solutions Excellence Award honors available products that help ensure remote workers have access to the same communications and other corporate resources as they would in the office. Whether they are adjusting to new teleworking environments during the COVID-19 pandemic or had previously adopted technologies in response to an already existing remote workforce trend, the products, and services from winners of the 2020 Teleworking Solutions Excellence Award will enable businesses to effectively support their mobile and remote workforces.

“

We implemented “1NUMBER.io” which solved the problem of personal security with reliable, secure communication. The service was fast & easy to implement, and has proven to be a solid solution for us.”
Tom Schreiber, Chief Information Officer, County of Shasta

101VOICE President Arman Eghbali said, “Our entire team is excited and proud to be the recipient of the TMCnet Teleworking Solutions award for our innovative 1NUMBER.io service. We created 1NUMBER.io to help state and local government offices during these unusual times related to the current health directive issues. Access to government resources is now more critical than ever, especially for health and family services. Communications and UCaaS mobility has become a fact of life; however, working remotely full time for government organizations has created new challenges. 1NUMBER.io is simple to use for calls, texting, and even faxing while protecting personal

cell phone numbers. It’s private, secure, (HIPAA compliant), and there’s no long term contract. Compared to Google Voice, it’s hands-down a better value, with more features and lower cost.”

Here’s what one of 101VOICE customers had to say about 1NUMBER.io:

When the “shelter in place” directives took effect in Shasta County, it was critical that some of our employees maintain uninterrupted communication with the public. Using their personal mobile phone exposed their personal telephone number and potentially their private information. We worked with 101VOICE to implement their “1NUMBER.io” service which solved the problem of personal security with reliable, secure communication. The service was fast and easy to implement, required no contractual commitment, and has proven to be a solid solution for our

needs.

Tom Schreiber, Chief Information Officer, County of Shasta

1NUMBER.io is an easy to use communication gateway with the 101VOICE cloud phone system that is HIPAA compliant, providing security, control, and protection of information and personal mobile phone numbers. 1NUMBER.io works with iOS and Android for calls, SMS/texting, faxing, and an array of enterprise features, including call recording and advanced auto attendant with multiple language support.

"The TMCnet Teleworking Solutions Excellence Award recognizes the best and the most innovative products that this industry has to offer. 101VOICE has proven their commitment to quality, and the further development of Teleworking Solutions industry through its 1NUMBER.io product," stated Rich Tehrani, CEO, TMC. "Congratulations to the entire team at 101VOICE for earning this great honor. I look forward to seeing more innovative solutions from them as they continue to contribute to the future of Teleworking," Tehrani added.

The 2020 TMCnet Teleworking Solutions Excellence Award will be highlighted on TMCnet and INTERNET TELEPHONY magazine's online news portal.
