Identity management (IdM) is the task of controlling information about users on computers. Such information includes information that authenticates the identity of a user, and information that describes information and actions they are authorized to access and/or perform. It also includes the management of descriptive information about the user and how and by whom that information can be accessed and modified. Managed entities typically include users, hardware and network resources and even applications.
In 2018, the global Identity Management Software market size was xx million US$ and it is expected to reach xx million US$ by the end of 2025, with a CAGR of xx% during 2019-2025.

This report focuses on the global Identity Management Software status, future forecast, growth opportunity, key market and key players. The study objectives are to present the Identity Management Software development in United States, Europe and China.

The key players covered in this study
OneLogin
Okta
PortalGuard
Centrify
Duo Security
PeoplePlatform
Bitium
PracticeProtect
LogMeIn

Dashlane Business

Market segment by Type, the product can be split into
Cloud-based
On-Premise

Market segment by Application, split into
Small & Mid-sized Businesses
Large Enterprise

Market segment by Regions/Countries, this report covers
United States
Europe
China
Japan
Southeast Asia
India
Central & South America

Market Dynamics

The report on identity and access management (IAM) market has managed to explore a variety of factors that are attributable for the growth of the market over the forthcoming years.
