

Colorado Mesothelioma Victims Center Appeals to the Family of a Person with Mesothelioma in Colorado to Call for Direct Access to Attorney Erik Karst of Karst von Oiste to Discuss Compensation-Please Don't Wait

DENVER, COLORADO, USA, June 22, 2020 /EINPresswire.com/ -- The Colorado Mesothelioma Victims Center says, "We Are appealing to the family of a person was just diagnosed with mesothelioma in Colorado to please call 800-714-0303 for direct access to attorney Erik Karst of the law firm of Karst von Oiste. Because of the Coronavirus people with mesothelioma were probably initially diagnosed with pneumonia or COVID-19 and not mesothelioma. If a person gets diagnosed with late stage mesothelioma it is important-they or their family retain the services of an extremely experienced-fulltime mesothelioma attorney-and not a local car accident attorney.

"Erik Karst the founding partner of the law firm of Karst von Oiste and his colleagues have been assisting people with mesothelioma in Colorado and nationwide for decades and they are responsible for over a billion dollars in compensation results for people like this. Rather than ordering a 'free' booklet about mesothelioma please call 800-714-0303 for direct access to attorney Erik Karst of Karst von Oiste. We are certain a person with mesothelioma in Colorado or their family will discover Erik Karst-is a mesothelioma compensation expert and at a minimum he will be very-informative." www.karstvonoste.com/

The Colorado Mesothelioma Victims Center wants to emphasize theirs is a statewide initiative available to a diagnosed anywhere in Colorado including communities such as Denver, Colorado Springs, Golden Leadville, Brighton, Durango, or Parker.

High-risk work groups for exposure to asbestos in Colorado include US Navy Veterans, civilian workers for the Department of Defense, power plant workers, oil refinery workers, miners, manufacturing workers, plumbers, electricians, auto mechanics, machinists, or construction workers. In most instances, these types of workers were exposed to asbestos in the 1950's, 1960's, 1970's, or 1980's. www.karstvonoiste.com/
