

# Global Hostels Market Trends And Strategies

*The Business Research Company's latest study on Hostels Market Global Report 2020-30: Covid 19 Growth And Change*

LONDON, GREATER LONDON, UK, May 12, 2020 /EINPresswire.com/ -- The global hostels market is expected to grow from \$6.08 billion in 2019 and to \$6.13 billion in 2020 at a growth rate of 1%. The slow growth in 2020 is mainly due to the economic slowdown across countries owing to the COVID-19 outbreak and the measures to contain

it. The market is then expected to grow and reach \$7.5 billion in 2023 at rate of 6.8%. Due to low cost, good value, experience-based accommodation, convenient places, and opportunities to meet other travelers', millennials are opting for hostels more commonly. However, misconceptions held by the population is the major factor restraining the hostels market.

A hostel can be described as a kind of budget-friendly shared accommodation that has a common area. Hostels typically have dorm-style rooms for travelers, but private rooms and hotel-like facilities are also available nowadays. Hostels prefer to concentrate on building a sociable atmosphere and are much less costly than a hotel.

Trends In The Hostels Market

The introduction of hybrid hostels is a key trend in the hostels market. To satisfy young urban professional travelers, hybrid hostels combine the affordability and sociability of dorm-accommodation with the upscale facilities of traditional hotels.
