CORONADO, CALIFORNIA, UNITED STATES, May 13, 2020

/EINPresswire.com/ -- Vince Marchetti was recently [featured in an exclusive interview](#) with Thrive Global. He highlighted what he has learned throughout his career in business, medical technology, and life sciences.

Vince Marchetti is the co-founder of a life sciences company that aims to bring technologies like telemedicine, remote patient monitoring, and dental insurance replacement to medical physicians and dentists.

Vince Marchetti is featured in an exclusive one on one interview.

In his interview, Marchetti shared habits that help him achieve success, advice for new graduates, and what drew him to the sales industry early on in his career. He also explained how the healthcare industry will be positively affected by the COVID-19 pandemic.

“First, patients will discover that they don’t need to go into the doctor’s office all the time. The patients that are at the most risk over the next two years are going to be that population that does need to see their doctors and interact with them on a daily or weekly basis sometimes,” says Vince Marchetti.

“Telehealth and remote patient monitoring are going to play a vital role here.”
