

# SMART-CONTROL – OKW’s First Plastic Electronic Enclosures For Room Corners

*OKW has launched SMART-CONTROL – its first plastic enclosure range designed especially for room corners. It can be mounted on ceilings, walls or table-tops.*

BRIDGEVILLE, PENNSYLVANIA, USA, May 15, 2020 /EINPresswire.com/ -- [OKW has launched SMART-CONTROL](#) – its first plastic electronic enclosure designed especially for room corners. It can be mounted on ceilings and walls using the suspension element, or on a table-top using the desktop stand.

Wedge-shaped SMART-CONTROL is perfect for a wide range of applications including security and monitoring, environmental technology, IoT/IIoT, gateways, measurement and control, sensors, control electronics, medical and laboratory technology.

Ideally, the enclosure should be mounted as close to the ceiling as possible; this high position is ideal for wide-area room monitoring, saves space and protects the equipment from damage or tampering.

SMART-CONTROL - Enclosures for Corner and Wall Mounted Electronic Devices.

Two versions are available, offering either a convex front or a recessed operating area for a membrane keypad. No fixing screws are visible from the front; all the stainless steel tamperproof Torx screws are at the rear. PCB mounting pillars are molded in both the top and bottom sections.

“

SMART-CONTROL is perfectly designed for electronic devices that need to be fitted discreetly in a room corner.”

*Sean Bailey*

SMART-CONTROL is available in two sizes: S (5.59” x 3.19” x 1.81”) and M (6.81 x 3.98” x 2.32”). The enclosures are moulded from strong, UV stable ASA+PC-FR (UL 94 V-0). The standard color is off-white (RAL 9002). Prices start at \$22.

Options and accessories for this new range include IP 55 seals, a wall suspension element (for 90° inside corners or flat surfaces), an ergonomic desktop stand (viewing angle 45°), Torx T8 self-tapping screws and a Torx T8 screwdriver.

SMART-CONTROL is available in custom colors. Other [customizing options](#) include CNC machining, lacquering, printing or laser marking of legends and logos, decor foils, RFI/EMI

shielding, installation and assembly.
