B2B GoodFirms is an outstanding research, ratings, and reviews platform. It builds a strong bridge for service seekers to associate with the most excellent service providers. The analyst team of GoodFirms evaluates each agency before indexing them in the catalog of top companies with numerous research methodologies.

The research process of GoodFirms includes three main key factors that are Quality, Reliability, and Ability. These elements are subdivided into several factors to identify the complete background of each firm, verify the online presence, experience in the domain area, and what their clients have to say about their services.

Focusing on the overall research process, every agency is provided with a set of scores that is out of a total of 60. Hence, index each service provider among the best software, top development companies, and other organizations from various industries. Currently, GoodFirms has also unlocked the catalog of [Top Customer Service Software](#) along with authentic ratings and reviews.
