

Washington US Navy Veterans Lung Cancer Advocate Urges a Navy Veteran with Lung Cancer in Washington to Call the Lawyers at Karst von Oiste to Discuss Compensation-If the Veteran had Heavy Asbestos Exposure

SEATTLE, WASHINGTON, USA, July 2, 2020 /EINPresswire.com/ -- The Washington US Navy Veterans Lung Cancer Advocate says, "We are urging a Navy Veteran who had significant exposure to asbestos prior to 1982 and who now has lung cancer to call 800-714-0303 for direct access to the remarkable lawyers at the law firm of Karst von Oiste. The vast majority of Navy Veterans who now have lung cancer and who had heavy exposure to asbestos decades ago do not realize

the \$30 billion dollar-asbestos trust funds were set up for them too. Financial compensation for a Navy Veteran like this might exceed \$100,000-even if they smoked cigarettes.

“

"If you husband or dad is a Navy Veteran with lung cancer and you know he had asbestos exposure in the Navy please call 800-714-0303 for direct access to the lawyers at Karst von Oiste."

*Washington US Navy Veterans
Lung Cancer Advocate*

"If you husband or dad is a Navy Veteran with lung cancer and you know he had significant exposure to asbestos in the Navy or at work please call 800-714-0303 anytime for direct access to the lawyers at the law firm of Karst von Oiste. The lawyers at the law firm of Karst von Oiste have been assisting Navy Veterans and people with asbestos exposure lung cancer and mesothelioma for decades and they are responsible for over a billion dollars for people like this. We know the Coronavirus has scared a lot of people and as a result they do not want to put anything more on their plate. Please don't put off your possible

compensation. This is worth your time." www.karstvonoiste.com/

The Washington US Navy Veterans Lung Cancer Advocate's free services are available to people with asbestos exposure lung cancer or mesothelioma in Seattle, Spokane, Tacoma, Vancouver, Bellevue, Kent, Everett, Renton, Yakima, Federal Way, Bremerton, The Tri Cities, Bellingham or anywhere in Washington State. <https://Washington.USNavyLungCancer.Com>

High-risk work groups for exposure to asbestos in Washington State include Veterans of the US Navy, hydro-electric power plant workers, shipyard workers in Bremerton, Seattle and Tacoma, nuclear power plant workers including workers at the Hanford Nuclear Site, hydroelectric workers, oil refinery workers, pulp and paper mill workers along Washington's Coast and Puget Sound, aerospace or commercial airplane factory workers, public utility workers, plumbers, electricians, auto mechanics, machinists, millwrights, insulators, pipefitters, and construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's. www.karstvonoiste.com/

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers. <https://www.cdc.gov/cancer/lung/statistics/index.htm>.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even

though the asbestos trust funds were set up for them too. We are trying to change this sad fact.”

<https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. www.karstvonnoiste.com/

For more information about asbestos exposure please visit the NIH's website on this topic:
