

SystemDomain announces Pro-Bono Identity & Access Management Assessment and define implementation roadmap.

SystemDomain, Chicago based IT professional services firm is performing complimentary assessment and define roadmap for Identity & Access Management Program.

CHICAGO, IL, USA, May 21, 2020 /EINPresswire.com/ -- [SystemDomain](#), a global IT professional services firm focused on Cyber Security announced that it is offering virtual pro-bono Assessment and Roadmap of Identity & Access Management Program conducted by industry leaders in Identity & Access Management.

Through our [IAM](#) consulting services, we can evolve your IAM projects to strategic initiatives, leveraging proven industry processes and best-in-class technologies.

To help get you to the next level, our team will :

- Conduct strategy sessions focusing on overview of IAM trends and vendors, customer business drivers and challenges
- Assess your existing infrastructure and system architecture and establish a strategic roadmap
- Recommend leading IAM technologies across SSO, Role Based Access Control (RBAC), Policy Based Access Control (PBAC) , Federation, Password management, Lifecycle management, Privileged Access Management, and Identity Governance.
- Elevate your IAM program from tactical projects to a strategic security program.

"As organizations navigate through global health and financial crisis due to Covid-19, we want to help organizations to protect and secure their assets, brand, employees, users and stockholders by offering Pro-Bono assessment, strategy and roadmap to implement Identity and Access Management Programs, said Shubhi Garg, CEO, SystemDomain, "At SystemDomain Inc. we continue working to do our part by providing technology, best practices and resources to our customers."

The pro-bono assessment and roadmap for Identity and Access Management program, is limited to companies (for profit and non-profit). The interested clients can reach to Shubhi Garg at sgarg@systemdomaininc.com for more details.

Security is every organization's top priority. At SystemDomain, we believe that assuring the availability, confidentiality and integrity of your IT infrastructure and the data it contains begins with controlling access to it. We also have strategic alliance with leading Cyber Security solution providers in Identity & Access Management to bring clients the cost-effective solutions. We offer on-premises and cloud based products at very competitive licensing models.
