

QinetiQ To Host Webinar on 'Revolutionising Test and Evaluation in Defence: Why Digital is the Way Forward'

SMi Reports: A free webinar led by QinetiQ will take place on July 8th 2020 to explore how Test & Evaluation (T&E) needs to be digitally modernised

LONDON, UNITED KINGDOM, May 26, 2020 /EINPresswire.com/ -- SMi Group is delighted to announce that there will be a [free webinar](#) led by QinetiQ on 'Revolutionising Test and Evaluation in Defence: Why Digital is the Way Forward' taking place on 8th July 2020 at 3pm BST (4pm CET / 10am EDT).

With the pace of innovation becoming an increasingly dominant factor in deterring aggression and winning battles, getting capability from the drawing board to the front line quickly and cost-effectively is now recognised as being fundamental to modern warfare.

This urgency will only convert to success if the capability delivered is proven to be safe, reliable and effective.

The webinar is FREE to join and will provide a view of how Test & Evaluation (T&E) needs to be digitally modernised to create a single thread of T&E evidence to provide a time and cost optimised through-life test plan. This will improve the military's ability to evaluate, certify and evolve their military capability to exercise their innovation advantage.
