

The British Army's ATDU to present on Power Management at Future Armoured Vehicles Power Systems Conference 2020

SMI Reports: Hear from the British Army's Armoured Trials and Development Unit at Future Armoured Vehicles Power Systems Conference in September.

LONDON, LONDON , UNITED KINGDOM, May 22, 2020

/EINPresswire.com/ -- The [Future Armoured Vehicles Power Systems Conference](#), taking place on 23rd-24th September 2020 in London, UK, will provide a global meeting point to discuss efforts being made to enhance current armoured vehicle performance, as well as an exploration of the developments being made to guarantee the long-term effectiveness of future forces.

For those interested in attending, there is a £300 Early Bird discount available until 29th May 2020. Register at <http://www.fav-powersystems.com/PR2>

The British Army's Armoured Trials and Development Unit (ATDU) is conducting 6 capability exploration 'Sprints' of which 'Power Management' is one, proving the importance of future armoured vehicle mobility for the British Army both now and for the future.

In September, delegates will have the opportunity to listen to Lieutenant Colonel Robert Page, Commanding Officer, Armoured Trials and Development Unit, British Army who is set to give a keynote address on 'Exploring and Exploiting Power Technologies for UK Mounted Close Combat'. The [presentation](#) will cover:

- Challenges in power management in our new generation of fighting vehicles

- Requirement setting and offerings in armoured vehicle power trains
- Future growth and demand for power in our mounted close combat manned and wingman technologies

The brochure including the full programme information is available to download at <http://www.fav-powersystems.com/PR2>
