

Colorado US Navy Veterans Lung Cancer Advocate Has Endorsed the Lawyers at Karst von Oiste to make Certain a Navy Veteran or Person with Lung Cancer in Colorado Who also had Asbestos Exposure Gets Compensated

DENVER, COLORADO, USA, July 10, 2020 /EINPresswire.com/ -- The Colorado US Navy Veterans Lung Cancer Advocate has endorsed the lawyers at the law firm of Karst von Oiste to assist a Navy Veteran or person with lung cancer in Colorado with compensation if the person had significant exposure to asbestos prior to 1982. The person the Advocate is trying to assist is over 60 years old and their financial compensation might exceed \$100,000 even if the smoked cigarettes. Sadly, most people like this are unaware the \$30 billion dollar-asbestos trust funds were set up for people who have lung cancer and who had heavy exposure to asbestos. For direct access to the lawyers at the law firm of Karst von Oiste please call 800-714-0303 anytime.

The Advocate says, "The lawyers at the law firm of Karst von Oiste have been assisting Navy Veterans and people with asbestos exposure lung cancer and mesothelioma for decades and they are responsible for over a billion dollars in financial compensation for people like this. Because of the Coronavirus many people with lung cancer are not going to their doctor-because they do not want to get COVID-19. If you had heavy exposure to asbestos in the navy or at work and you now have lung cancer-please call 800-714-0303 anytime to discuss possible compensation with the lawyers at Karst von Oiste. This is worth your time."

The Colorado US Navy Veterans Lung Cancer Advocate's free services are available to people with asbestos exposure lung cancer or mesothelioma in Denver, Colorado Springs, Aurora, Fort Collins, Lakewood, Thronton, Pueblo, Greeley or anywhere in Colorado. <https://Colorado.USNavyLungCancer.Com>

High-risk work groups for exposure to asbestos in Colorado include US Navy Veterans, workers at Fort Carson, or Cheyenne Mountain, workers at one of Colorado's 12 coal fired power plants, miners, manufacturing workers, public utility workers, plumbers, electricians, auto mechanics, machinists, or construction workers. In most instances, these types of workers were exposed to asbestos in the 1950's, 1960's, 1970's, or 1980's. <https://USNavyLungCancer.Com>

Colorado US Navy Veterans Lung Cancer Advocate

According to the American Cancer Society for nonsmokers who have been exposed to asbestos in their workplace the risk of lung cancer is five times that of unexposed workers. <https://www.cdc.gov/cancer/lung/statistics/index.htm>.

The US Navy Veterans Lung Cancer Advocate says, "If your husband, dad, coworker or neighbor has just been diagnosed with lung cancer and you know they had

significant exposure to asbestos in the navy, at a shipyard or while working at a factory, at power plant, public utility, or as a plumber, electrician welder, mechanic or any kind of skilled trades group in any state please have them call us anytime at 800-714-0303. Most people like this never get compensated-even though the asbestos trust funds were set up for them too. We are trying to change this sad fact." <https://USNavyLungCancer.Com>

States with the highest incidence of lung cancer include Kentucky, West Virginia, Maine, Tennessee, Mississippi, Ohio, Indiana, Louisiana, Arkansas, Missouri, North Carolina, Rhode Island, Alabama, and Delaware. However, there are people with asbestos exposure lung cancer in Colorado. www.karstvonoiste.com/

For more information about asbestos exposure please visit the NIH's website on this topic:
