

California Mesothelioma Victims Center Urges the Family of a Person with Confirmed Mesothelioma in California to Call for Direct Access to Attorney Erik Karst of Karst von Oiste-Get Serious about Compensation-ASAP

LOS ANGELES, CALIFORNIA, USA, July 17, 2020 /EINPresswire.com/ -- The California Mesothelioma Victims Center is urging the family of a person who has just been diagnosed with mesothelioma anywhere in California to please call 800-714-0303 anytime for direct access to attorney Erik Karst of the law firm of Karst von Oiste.

Because of California's Coronavirus lock down there is a good chance people that had symptoms including shortness of breath, high fever and or pneumonia did not want to go to a hospital ER. If they went to a hospital

ER with these symptoms the doctors may have called their condition suspected Coronavirus. The average age for a person with mesothelioma in the US is 72 years old. "As a result of this perfect Coronavirus storm we fear that many Navy Veterans or people who had mesothelioma in California-were diagnosed with COVID-19 and they or their family will never receive a dime.

"If you know your loved one had significant exposure to asbestos in the navy or at work prior to 1982, and he is over 60 years old-please tell his doctors about his asbestos exposure-if this person is in a California hospital with suspected COVID-19-Coronavirus. If the doctors determine you loved one has mesothelioma, please call 800-714-0303 for direct access to attorney Erik Karst of the law firm of Karst von Oiste. Erik Karst is one of the nation's leading mesothelioma attorneys and he will know how to help. Mesothelioma compensation for a person in California frequently exceeds a million dollars." www.karstvoniste.com/

For the best possible mesothelioma treatment options in California the California Mesothelioma Victims Center strongly recommends the following health care facilities with the offer to help a diagnosed victim, or their family get to the right physicians at one of these three hospitals:

* UCLA Medical Center Los Angeles, California:
<https://cancer.ucla.edu/>

* Stanford Cancer Institute:
<https://cancer.stanford.edu/>

The California Mesothelioma Victims Center also wants to emphasize theirs is a statewide unsurpassed service that is available to any diagnosed victim in California including communities such as Los Angeles, San Diego, San Francisco, San Jose, Riverside, Fresno, Sacramento, Oceanside, Palm Springs, Riverside, or Eureka.

High-risk work groups for exposure to asbestos in California include US Navy Veterans, power plant workers, shipyard workers, oil refinery workers, chemical plant workers, manufacturing workers, plumbers, electricians, auto mechanics, machinists, or construction workers. Typically, the exposure to asbestos occurred in the 1950's, 1960's, 1970's, or 1980's.

According to the CDC the states indicated with the highest incidence of mesothelioma include Maine, Massachusetts, Connecticut, Maryland, New Jersey, Pennsylvania, Ohio, West Virginia, Virginia, Michigan, Illinois, Minnesota,

Louisiana, Washington, and Oregon. However, mesothelioma and asbestos exposure lung cancer

happen to over a thousand people each year in California. www.karstvonoiste.com/
