Delivering a Seamless Patient Experience in the New Normal

Radix's DASH software will help Rothman Orthopaedics adapt to the growing need for on-demand and scheduled virtual visits. The DASH platform enables frictionless access to care by giving patients the ability to search providers and identify the right doctor to meet their medical needs at the right time. Patients are able to self-schedule telehealth visits across a number of digital channels.

Words from the President of Rothman Orthopaedic Institute and the CEO of Radix Health

"As leaders in orthopaedic care, it's our responsibility to ensure our patients have access to the

right care at the right time,” said Alexander R. Vaccaro, MD, PhD, MBA, President of Rothman Orthopaedic Institute, Richard H. Rothman Professor and Chairman of the Department of Orthopaedics, and Professor of Neurosurgery at Thomas Jefferson University and Hospitals. “The current health pandemic created an unprecedented demand for virtual visits, and we knew that we needed to quickly adopt online scheduling to meet the growing demand. We are excited about our ability to streamline access to virtual care and offer online scheduling through various digital channels.”

“Rothman Orthopaedics is a national leader in orthopaedic care.” said Arun Mohan, MD, MBA, CEO and Co-Founder of Radix Health. “A key component of telehealth is providing patients with the ability to identify the right doctor for their needs and to ensure the condition can be evaluated via telemedicine. We’re improving patient access to virtual visits during a time when many patients are relying on telehealth for much needed care.”
