

Future House Group Electric Polar Bears Release 3 New Projects, Break The Ice

All Projects Available Now on All Major Platforms

LOS ANGELES, CALIFORNIA, UNITED STATES, May 29, 2020

/EINPresswire.com/ -- Electric Polar Bears, emerging future house group, release three projects for their newest single, "Break The Ice." Along with the original, the polar bears have released a music video and remix, "Break The Ice (Freshcobar & Lavelle Dupree Remix)."

The original song was inspired when the Electric Polar Bears came across "the penguin of their dreams", in Miami at the 2019 Winter Music Conference. She was dancing hard enough to break the ice, literally and figuratively, but it was the polar bears that had to make the first move.

While in Miami, the Electric Polar Bears also met Lavelle Dupree who was interested in putting his own spin on the song, which is exactly what happened with the remix, in collaboration with Freshcobar. The remix to "Break The Ice" takes it back to the basics with groovy, funky sounds.

Unlike most music videos, the footage used in the official music video for "Break The Ice" was filmed before the song was produced. It was shot during their show at the 2019 Winter Music Conference in Miami, FL. The Electric Polar Bears created the music video to share the joy and entertainment they had in Miami when they first saw the penguin.

The official music video is available now on [YouTube](#). "[Break The Ice](#)" and "[Break The Ice \(Freshcobar & Lavelle Dupree Remix\)](#)" are available on all major platforms. Follow Electric Polar Bears on [Instagram](#) and Facebook to keep up with their growing success.
