This new Apple Self Storage location offers 30,000 square feet of climate-controlled, ground-floor self storage space with unit sizes ranging from 5'x5' to 15'x25' and an indoor loading bay to keep you warm and out of the snow and rain.

“

We're thrilled to be entering into the Thunder Bay market. It's such a dynamic market and one that we've been looking for ways to invest in for some time.”

David Allan

Our office offers a convenient lobby with moving supplies including boxes, locks, and furniture covers for sale, and friendly staff to assist with all storage needs.

Apple Self Storage's David Allan notes: “This building was vacant for several years and we were very excited to put our adaptive reuse program to work in Thunder Bay. We took the existing building and re-used as much of the building and materials as possible. We believe strongly in

finding ways to try and reduce our carbon footprint and this was one of the ways that we were able to creatively re-use much of the materials that were already present.”

Allan continues: “Also, we're thrilled to be entering into the Thunder Bay market. It's such a dynamic market and one that we've been looking for ways to invest in for some time. We know that with everything that's been happening with the pandemic, every little bit counts and we're really excited to start to engage with the community.”

The Apple Self Storage Thunder Bay facility is open for business and ready to help with any storage needs. Customers can reserve their own secure space by visiting www.applestorage.com or calling 807-333-0883.
