## Unlimited Search of Thousands of Investment Properties

Buyers who are Connected Investors subscribers get unlimited access to the platform, featuring listed properties that are either off-market or have not yet been listed on MLS. These properties include expired listings; for sale by owner; foreclosures/REO; pre-foreclosure; vacant; pre-auction properties and more. Connected Investors aggregates and presents properties for buyers' consideration, and connects buyers with sellers in multiple categories, including house flippers, hedge funds, landlords, builders, real estate investors and land developers.

The Connected Investors platform provides buyers with the ability to quickly contact motivated sellers. Buyers registered with a Connected Investors account receive 20,000 monthly skip traces; sellers' email addresses; and an ability to message sellers. All of these capabilities are available in Connected Investors' full-featured demo.

## Exclusive Private Lender Network

One of the most important components of Connected Investors is the access it offers to private, non-bank lenders. Real estate investors can gain access to the funding they need for most any residential or commercial property transaction, including long or short-term financing for purchases conducted on the platform. Buyers can get the financing they need for purchasing any type of property, including apartments and multi-family rentals. Funding is also available for construction loans, bridge loans, refinancing and more. The Connected Investor website offers free funding resources in addition to its private lender portal: investors can download a free list of 3,482 private lenders.

## Comprehensive Library of Learning Tools

Connected Investors offers a library of educational resources on its website that allows new and expert buyers and others to learn about real estate investing.
