

SIGNIFICANT DEMAND FOR COVID FREE CARIBBEAN ISLANDS REOPENING THIS SUMMER

The Caribbean announces many Island re-opening

NEW YORK, UNITED STATES, IRELAND, June 3, 2020 /EINPresswire.com/ -- The governments of the various Caribbean Islands reacted exceptionally quickly to COVID-19. They restricted social life, closed down schools and universities, resulting in very few cases, especially in the smaller islands. The Caribbean Regions total number of cases is less than a half percent of the worldwide cases.

The result is that many of the islands are now entirely COVID free while other nations are still battling the virus. They are happily ready to welcome tourists to experience some paradise life after being in lockdown for so long and are one of the first regions in the world ready to bring travelers back.

“

Exceptional Villas is offering our guests more flexibility when booking with safety and privacy at the forefront of our properties.”

The Caribbean has also been quick in introducing detailed new government-mandated protocols which include new safety standards at airports, taxis, and communal areas. Jamaica, as an example, who recently announced their

reopening have developed COVID-19 health and safety protocols of over 100 pages. Property Managers have undergone extensive training in further disinfection and distancing protocols. The emphasis all around is safety and privacy.

American Airlines, Southwest, Delta, and European carriers such as British Airways have all announced a return of some of their fleet to the region.

Many of our clients have contacted us saying how they dreaming of being on a beach with their

toes in the sand or swimming in the crystal clear Caribbean. Exceptional Villas who are the number one vacation rental company in the world on Trust Pilot have observed that clients are quicker to book vacation rentals than hotels when it comes to their first post-COVID-19 vacation. There are many reasons for this.

There is a widespread understanding that vacation rentals are a safer option than hotels and other forms of accommodations. Villas and vacation properties have much more space with facilities such as swimming pools, tennis courts, hot tubs, gardens, gyms, and cinema rooms in many of the luxury properties. Grocery delivery is available to guests, and communal areas are not shared with any other guests ensuring a safe home away from home experience.

Vacation properties in the Caribbean have adopted extremely effective housekeeping practices. Each villa receives deep cleaning after each guest departs as well as extra days added between guests for further peace of mind. The bottom line is that it is much easier to social distance in a villa which means that until there is a vaccine, clients can still enjoy a bit of paradise.

Last but not least, according to Alexandra Baradi, CEO and Owner Exceptional Villas is offering our guests more flexibility when booking with safety and privacy at the forefront of our properties.
