

Global Telemedicine Services Market To Reach Value Of \$78 Billion In 2023

Telemedicine Services Market Global Report 2020-30: Covid 19 Growth And Change

LONDON, GREATER LONDON, UK, June 12, 2020 /EINPresswire.com/ -- The global telemedicine services market is expected to grow from \$39.3 billion in 2019 to \$48.3 billion in 2020 at a rate of 23%. The growth is mainly due to the lockdown across countries owing to the COVID-19 outbreak and the preference for contactless medical

services. The market is then expected to stabilize and reach \$78.3 billion in 2023 at rate of 17.4%. Rising cases of COVID-19 infections across the globe boosts the demand for the telemedicine services market. However, likelihood of breaches in the data makes patients uncomfortable on sharing personal information that would help the physicians to diagnose the patients' health. This is affecting the telemedicines market negatively.

The telemedicine services market consists of sale of telemedicine services and related products. Telemedicine services are health care services provided via video chat, phone calls, text messages. Patients can use telemedicine for physical examination as well as to ask questions regarding health concerns.
