LOS ANGELES, CA, USA, June 15, 2020 /EINPresswire.com/ -- [Wholesale Face Masks made in USA](#)

As society adapts to the COVID-19 Pandemic, the use of face masks has become crucial for everyday use and safety. In response to this growing demand, California Textile Group, through their website LAMADEMASK.COM is now producing comfortable, affordable, and stylish face masks for day-to-day wear. As the temperature rises with the arrival of summer, more people are going out, and masks have become standard apparel. These USA made wholesale face masks are reusable, breathable and functional, and most importantly, help protect you from the virus.

Summer Collection Face Masks

The Masks

The face masks produced are made of high-quality fabric, with softness and function in mind. An amazing benefit that LAMADEMASK provides is the ability to customize your face mask and allows the user to be free with their creativity. Companies may display their [wholesale masks with logo](#) to use as giveaways. The feature is benevolent and functional to people who would like fashionable, snug, and inexpensive protection from COVID-19. The options for fabric include cotton, cotton-poly and spandex, Supima, spun poly, and micro poly spandex. They are not single-use, making them extremely efficient and made with high quality and professional finishes for your best enjoyment.

The [bulk face coverings](#) are not a surgical or medical grade but instead intended for the general public, making them more lightweight and breathable for everyday use. They offer a minimum of 250 pieces per colored masks, (black, red, blue, green, and more) at \$2.25 per piece. Buying Wholesale Face Masks made in USA allows you to enjoy wholesale pricing while helping yarn suppliers, knitting factories, and dyeing factories to stay in business. While you are protecting your employees, families, and friends by wearing a mask, buying wholesale face masks made in USA provides jobs to many Americans struggling during these economic hardships.

How masks protect you

COVID-19, an airborne virus, is spread through respiratory droplets when a carrier coughs, sneezes, or talks, or by touching your mouth, nose, or eyes. Masks are a barrier to stop the virus.
