"During these unprecedented Covid times, with teams working remotely - there is greater emphasis on continuous feedback loop with code reviews and continuous integration cycles to ensure that there is visibility on the progress of the sprint and also have early detection of issues. Releaseowl is a powerful

early warning system for the customers migrating from SAP on-prem to SAP Cloud or developing applications directly on SAP Cloud Platform. With current release 1.2, our commitment for scalable and reliable delivery automation of SAP cloud applications has strengthened further"

commented Niranjan Gattupalli, the Founder and CEO of ReleaseOwl.
