Scoreboard

GoodFirms is a leading B2B research, ratings, and reviews platform. It is globally recognized for spotlighting the best software providers and top development companies. So that the service seekers pick the best partner for their project needs effortlessly.

The analyst team of GoodFirms assesses each and every firm with strict research measures. It includes three crucial criteria that are Quality, Reliability, and Ability. These components are segregated into several metrics such as identifying the complete background of each firm, experience in their expertise area, market penetration, and client reviews.

Thus, considering these above-mentioned parameters all the firms are provided with a set of scores that is out of a total of 60. Hence, according to these points, every service provider is indexed in the catalog of top development companies, best software, and other firms from different sectors of the industries. Recently, GoodFirms unfolds the newly assessed list of [Best Data Visualization Software](#) that specializes in producing interactive visuals with predictive analysis, text mining and much more.
