New Study On “2019-2025 E-Gates Market Global Key Player, Demand, Growth, Opportunities and Analysis Forecast” Added to Wise Guy Reports Database

E-gates is a system available at the arrival and the departure-gates of the airport, which helps validate the identity of the passengers using various technologies such as iris scanning, fingerprint scanning, and face scanning.

There is an increase in strict security concerns due to the rising instances of criminal activities in airports and aircrafts across the globe. For instance, thousands of passengers were killed during the terrorist attack on World Trade Center (WTC) in September 2011. As a result, airport authorities are trying to avoid such instances in the future by heavily investing in security and installing E-gates at the airport. The increasing demand E-gates from the homeland security sector is identified as one of the key trends that will stimulate growth in the e-gates market throughout the predicted period.

The E-gates market appears to be concentrated due to the presence of a few vendors.
