Dairy Ingredients Market Share

According to the report, the global Dairy Ingredients market was valued over USD 53.10Billion in 2019 and is expected to reach a CAGR of 7.10% between 2019 and 2025.

Cows category is projected to dominate the Dairy Ingredients market

Cowscategory is estimated to account for the major share of the global Dairy Ingredients market during the forecast period. This is basically due to the growing cow population that will result in increased milk production. Moreover, the ease and cost-effective methods of extraction of dairy ingredients compared to other sources are likely to propel the growth of the global Dairy Ingredients market.
