MONTESSORI PRESCHOOL AND STEM LEARNING

Here is background on this release. Prior to the COVID-19 pandemic, many East Bay parents brought their children to Learn and Play Montessori to experience a best-in-class Montessori program. They were understandably concerned about laying the foundation for excellence in STEM (Science, Technology, Engineering, and Math) by leveraging the Montessori method. Montessori empowers students to learn how to learn, and to love learning. In addition, its hands on methodology and self-paced rhythm allow children to move as quickly, or as slowly, as they need to. In this way, the foundation for lifelong learning is encouraged and instilled in the child.

Finally, in addition to a best-in-class Montessori program in Dublin, Danville, and Fremont, the campuses offered convenient hours and drop offs, so that busy commuters had a wonderful place to place their children. With the reopening, the plan is to get back on track in a safe and secure manner.
