# ManagePointe MSP Announces Strategic Partnership with PCIHIPAA for Comprehensive Compliance Solutions

Partnership Addresses Key Challenges for Many Healthcare Providers During COVID-19

LAS VEGAS, NEVADA, UNITED STATES, June 25, 2020 /EINPresswire.com/ -- [ManagePointe MSP](#) announced its new partnership with [PCIHIPAA](#), a leading Compliance and Cyber Security provider. The partnership is focused on protecting ManagePointe MSP clients from the onslaught of HIPAA, OSHA & PCI violations which include ransomware attacks, data breaches and occupational safety hazards.

During the COVID-19 Pandemic, attacks have increased dramatically, impacting medical and dental practices throughout the United States. PCIHIPAA will provide ManagePointe MSP and its clients a full service compliance program.

"ManagePointe MSP is committed to our client's success. We believe PCIHIPAA's OfficeSafe Compliance Program is the right solution for HIPAA, OSHA & PCI compliance," said James W. Rotondo, CEO of ManagePointe MSP. "We are confident PCIHIPAA's OfficeSafe Compliance solutions will help to safeguard both our client's and their patient's private information and safety hazards during the COVID-19 Pandemic."

Protected Health Information (PHI) continues to be under attack as hackers strive to monetize stolen data on the dark web. Halfway through 2020, over 3,000,000 individual patient records have been breached, according to the HHS (U.S. Department of Health and Human Services) website.

PCIHIPAA recently announced the addition of OfficeSafe OSHA, an innovative OSHA compliance solution for Healthcare Providers with a COVID-19 Resource Center. ManagePointe MSP will be able to offer their clients an "all-in-one" HIPAA, OSHA and PCI compliance solution.

"We are excited to be working with ManagePointe MSP. Their infrastructure and expertise provide medical and dental practices with peace of mind," said Jeff Broudy, CEO of PCIHIPAA. "We find that many practices don't have the resources to navigate HIPAA & OSHA law, and are unaware of their most common vulnerabilities. Adding OfficeSafe 360 to ManagePointe MSP's suite of services will provide an easy and complete solution for medical and dental practices, large and small. We invite every ManagePointe MSP client to join James and I for a webinar on Wednesday, July 15th to discuss Cyber Security & Compliance During COVID19. To welcome ManagePointe MSP clients to the PCIHIPAA family, we will be offering attendees of the July 15th webinar OfficeSafe 360 Free for 60 Days. We hope to see you there."

PCIHIPAA's OfficeSafe 360 solution provides a number of key features that will allow busy and growing Healthcare Providers to easily conform to strict HIPAA, OSHA and PCI regulations. OfficeSafe 360 includes:
