#### About Dr. Dain Heer

Dr. Dain Heer is a joy-seeking, reality-bending author, motivational speaker and change-maker, renowned globally for his provocative views on life, consciousness and creation. For more than twenty years, Heer has travelled the world, sharing his unique insights on relationships, money, body work, happiness and consciousness. Through his books, workshops, articles and media appearances, Heer empowers people from every culture, country, age and social strata to create the life, money and relationships they truly desire.

Heer is a co-creator of Access Consciousness, a personal development modality practiced in more than 173 countries. He has a vast and engaged social media following that daily reaches hundreds of thousands of people through his live seminars and online presentations, and also attracts millions of viewers on YouTube.

Originally trained as a chiropractor, he has developed a completely different approach to healing; empowering and inspiring people to tap into and recognize their own abilities and knowing. Heer is also a pioneer in the understanding of subtle energy and its effects on change, health and well-being and has developed his own process known as the Energetic Synthesis of Being(ESB).

Growing up in the ghetto in Los Angeles, Heer was exposed to constant mental, physical,

emotional, sexual and monetary abuse from a young age. However, he never chose to be a victim. Instead, he discovered the power of personal transformation, allowance, courage and resilience. He has learned to transform life's challenges into a gift of strength. Above all, Heer realized that his inherent deep caring for others had never faded.

Over time, Heer recognized that he had the ability to empower people to heal themselves, by choosing to approach healing in a new and powerful way. In his talks and workshops, he uses a unique set of tools and provides step by step energetic processes to get people out of the conclusions and judgments that are keeping them stuck in a cycle of no choice and no change – leading them into moments of awe that have the power to change anything.

Heer is a keen entrepreneur and a benevolent business leader. He is the co-founder of a diverse range of businesses including El Lugar, a resort in Costa Rica that utilizes biodynamic land management, Castello di Casalborgone, a luxurious castle in Italy that invites people to experience the elegance of living; and the Double D Ranch outside Houston, Texas, showing the world a different way of living.
