

Global Artificial Intelligence (AI) Image Recognition Market 2020 Latest Trends, Share, Opportunities and Forecast-2026

WiseGuyReports.com Presents "Global Artificial Intelligence (AI) Image Recognition Market 2020-2026" New Document to its Studies Database

PUNE, MAHARASTRA, INDIA, July 1, 2020 /EINPresswire.com/ --
Market Scope

The latest study aims to provide key insights, accurate data figures along with the information associated with aspects such as market size, share,

scope, and more. The study also consists of useful differentiating information with regard to the segments. All of these segments cover all the market fronts including market size, historical performance, expected growth rate, among others. The continuously evolving dynamics of the global [Artificial Intelligence \(AI\) Image Recognition](#) market are monitored continuously by our experts. To summarize, the expected as well as the current market status is offered by the report, with the forecast period starting from 2020, and ending at 2026.

Key Drivers and Barriers

Aside from the thorough coverage of the key dynamics that influence the worldwide Artificial Intelligence (AI) Image Recognition market, the study also offers the latest pricing record along with the future volume trends during the evaluation period. The primary barriers, key drivers as well as notable opportunities have been carefully studied in order to provide an enhanced understanding of the whole industry.

Key Players

Aether, Inc.
Amazon Web Services, Inc.
Clarifai, Inc.
Cortexica Vision Systems, Ltd.
Cortica
Google LLC
IBM Corporation
Intel Corporation
LPixel, Inc.
Micron Technology, Inc.
Microsoft Corporation
Nvidia Corporation
Pixelab
Procter & Gamble Co.
Qualcomm Corp.
Samsung Electronics Co., Ltd.
Softech, Ltd.
Vee Technologies, Inc.
Visenze
Webtunix
Xilinx Inc.

Regional Study

In this section, all the inadequacies, opportunities, strengths and the threats that can be significant in the global Artificial Intelligence (AI) Image Recognition market have been covered in the report with respect to certain regions around the world. Other than the region-based latest developments, the report also focuses on the companies that are continuously working on expand their base and boost their profits, with the help of strategies such as partnerships and agreements across these regions. The regional study of the Artificial Intelligence (AI) Image Recognition market also elucidates the current valuation coupled with the expansion rate at which the market can advance across these regions during the appraisal period. The main regions taken into account while studying the global market include Europe, the Middle East & Africa, North America, Latin America, as well as Asia Pacific. Region-wise, the oncoming and the latest growth trends along with the market size have been given in this section.

Method of Research

The research of the Artificial Intelligence (AI) Image Recognition market has been performed by

our experts who have given data-based information, using the effective parameters of the Porter's Five Force Model. The leading companies and the shares owned by them in the global market have been determined on the basis of primary and secondary methods. The research procedure involves review of the financial and annual reports of these players and valuable inputs taken by taking detailed interviews of leaders such as VPs, CEOs, marketing executives and directors. The primary and secondary methods have been employed by the experts in order to provide an elevated comprehension of the worldwide Artificial Intelligence (AI) Image Recognition market, while also considering the opportunities, threats, weaknesses as well as the strengths of the parent industry.
