PUNE, MAHARASTRA, INDIA, July 1, 2020 /EINPresswire.com/ -- Target Drone Market:

## Executive Summary

Target drone are remote controlled unmanned aerial vehicles (UAVs), used for training individuals in anti-aircraft crew. They are used for military training and as ground target, arial target, underwater target, and sea surface target. The target drone imitates the missiles, as it is also used to test weapon calibration, anti-missile and anti-submarine training sessions. The global Target Drone market is facing challenges due to effect of COVID-19 on supply chain and business development programs. However, increased emphasis on enhanced military training and advantages of target drones over manned target vehicles are the few factors responsible for growth of the market over the forecast period. For instance: as per Statista, the United States spend around USD 466.76 billion on its military in 2000 and the figure is increased by USD 718.69 billion military spending in 2019. Moreover, the introduction of new target drone and other strategic alliance by market key players will create a lucrative demand for this market. For instance: on 09th September 2019, Qinetiq Group Plc launched Next -Generation Banshee, "Banshee NG"., the target that recreates fast flying jets and missiles, enabling test and evaluation and live fire training exercises. Whereas, lack of skilled and trained personnel is the major factor restraining the growth of the global Target Drone market during the forecast period.
