

BeMotion Inc. Partnering with Smart Services Corp. to Launch a New Service app for Home & Retail Services

BeMotion Inc. Partnering with Smart Services Corp. to Launch a New Service app for Home & Retail Services

TORONTO, ONTARIO, CANADA, July 6, 2020 /EINPresswire.com/ -- [BeMotion Inc.](#) Partnering with Smart Services Corp. to Launch a New Service app for Home & Retail Services, the Mobile App Will Solve the Challenge of Finding Good & fast Services

Companies in the United States and Europe like Angie's List and Handy have been growing for years. These are websites and mobile apps that make it easier for homeowners to find help in fixing problems around the house. Until today, this was an idea that was left untapped in the MENA region. But not anymore. In the fall of 2020 will see the introduction of the Smart Services mobile application. Beginning with service providers in the North American, MENA markets, the app seeks to provide an extensive and comprehensive database of home service providers that will do

anything from painting and cleaning your house to rewiring the bungalow outback. "As a homeowner, I have always hated having to deal with the occasional issues around my home," states Hussein Abu Hassan, BeMotion Inc. Founder & CEO. "There are thousands of very talented

We don't sell software, We deliver success ”

BeMotion Inc

men and women that can provide these services, but there has never been an easy way to contact, communicate and connect with them." We are going to change that. Smart Services Corp., is partnering with BeMotion Inc, the Toronto based software firm best known for its Mobile Commerce Network platform solution. "BeMotion inc allows us to enter the market almost immediately with a multi-million-dollar technology ecosystem, and that has already been proven to support our business goals. I can focus on growing the business instead of supporting the technology requirements", states Susan Walker,

CEO of Smart Services Corp.

About ([MCN Platform](#)):

<https://www.bemotioninc.com/>

The platform empowers businesses to build native apps for a variety of business functions.
