Simple for Lawyers. Simple for Clients.

SimpleLaw Legal Case Management Software Platform

SimpleLaw and LEJ share the goal of leveraging the power of technology to transform the availability and delivery of legal services to all. SimpleLaw believes case management software is a primary vehicle to make legal services more accessible for all those in need. According to the World Justice Project, 5 billion people globally have unmet legal needs.

“We are so excited to work with the LEJ organization to support attorneys committed to increasing client engagement and providing services efficiently and effectively,” said Praveen Medikundam, Esq., co-founder of SimpleLaw and an active attorney. “Incubators such as LEJ have a powerful impact on the successful development of law firms and represent the future of the profession.”

“We are pleased to add SimpleLaw to the case management software options for our incubator participants,” said Laurie Gilbertson, Executive Director, LEJ. “SimpleLaw connects potential clients to attorneys, provides access to vetted on-demand paralegal support, and allows users to connect with other attorneys through the platform. This creative technology helps give the clients who need them easier access to LEJ lawyers and helps the lawyers better manage their practices.”

To find out how SimpleLaw delivers greater efficiency to your cases and practice, visit us at <https://www.simplelaw.com/>. To book a meeting to see the platform or review enhancements, contact us at hello@simplelaw.com.
