Bike Helmets are useful as safety gear to prevent or minimize injuries to the head and brain in an uncontrolled environment during riding a bike. According to the US Consumer Product Safety Commission, about 900 people, including more than 200 children are killed annually in bicycle related incidents, and about 60 percent of these deaths involve a head injury. Bike Helmets can help absorb impacts and save their life. Europe is the largest consumption place, with a consumption market share nearly 35.92% in 2017. Following Europe, USA is the second largest consumption place with the consumption market share of 33.55%. Since the COVID-19 virus outbreak in December 2019, the disease has spread to almost 100 countries around the globe with the World Health Organization declaring it a public health emergency. The global impacts of the coronavirus disease 2019 (COVID-19) are already starting to be felt, and will significantly affect the Bike Helmet 3900 market in 2020.

COVID-19 can affect the global economy in three main ways: by directly affecting production and demand, by creating supply chain and market disruption, and by its financial impact on firms and financial markets.

The outbreak of COVID-19 has brought effects on many aspects, like flight cancellations; travel bans and quarantines; restaurants closed; all indoor events restricted; over forty countries state of emergency declared; massive slowing of the supply chain; stock market volatility; falling business confidence, growing panic among the population, and uncertainty about future. This report also analyses the impact of Coronavirus COVID-19 on the Bike Helmet 3900 industry.
